Aberdeen used to be the east of lunumerable sensations. That was during the administrations of Equires Sheriton and Beasley, who is their long lives kept that village weit before the country at large by reason of its title of the "Gretta Green of America." The last named fagintrais died last, some three years since, and with him died the very questionable practices that had for so long prevailed, and Aberdeen settled down to the quiet, hundrum existence that becomes a goodly town of its own proportions, as well as one whose people are as well disposed as are her citizens.

sions, as well as one whoso people are as well disposed as are her citizens.

It remained for the present Pastor of the M. E. Church to do something that would at one swoop, as it were, again bring old before to the front as in the days of yore. But it appears that the plan he has adopted is somewhat like the act of the feliow who undertook to lift himself by the straps of his own bools. And while he may obtain a little cheap netorlety he is certainly liable to be called to account by his superiors for indulging in practices which are not only senseless, but savoring too strongly of Romanism to suft his own tenests.

This is that way he sought to do it:
At the regular Monday night prayermeeting he formally and seriously amounced that at 9 o'clock on the following and the summer of the souls of departed members of the congregation. Moreover, that he wanted every Christian who heard the hell to get right down and pray for sinners.

heard the hell to get right down and pray for sinsers.

The scheme is a new one, and while it may be of effect, it certainly is an law vation and not Methodistic, to say the very least of it. It appears, from this standpoint, at least, to savor of the seek-ing of cheap notorioty, obtained by the means of unwarranted and senseless poppycock.
